

Neighbourhood Watch

Want to Make a Difference?

Would you like to work with your neighbours to make your street a nicer place to live, where crime and antisocial behaviour are less likely to happen?

Our members work together alongside the police and our other partner agencies, sharing concerns and observations, reducing crime and the fear of crime.

We help to make our communities safer and happier places by looking out for each other.

For more information and to join Neighbourhood Watch go to our national site at www.ourwatch.org.uk

Statistics show that belonging to a Neighbourhood Watch scheme significantly reduces the possibility of becoming a victim of crime.

You can make a difference to where you live!
